NightShift for Sleep Apnoea

Night Shift, vibro-tactile positional therapy for obstructive sleep apnoea, keeps you off your back so you snore less and sleep better.

Worn on the back of the neck, it begins to vibrate

when you start to sleep on your back. The vibration slowly increases in intensity until you change positions. Rental for 1 week to determine if it works for you, downloaded \$70 and half rebated from price \$450 – no prescription required. As it does up with magnets, it is like wearing a necklace.
